INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. The Register also contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current Register volume year and a Sections Affected Index listing by Title each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume year. Both indices are action coded and are designed to aid the public in monitoring rules.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State statute; and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies; is also published in the Register.

The Register is a weekly update to the *Illinois Administrative Code* (a compilation of the rules adopted by State agencies). The most recent edition of the Code along with the Register comprise the most current accounting of State agencies' rules.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1 et seq.].

to this Section allows that movement of a permit load one day before the effective date or one day after the expiration date be considered a violation of the permit rather than that no permit exists. This is a guideline for the State Police to follow where none presently exists.

Section 554.407 When Escort Vehicles are Required The amendment to this Section further defines when and how many escort vehicles are required with permit loads.

Section 554.409 Manufactured Homes This amendment allows for the movement of manufactured homes up to a total length of 115 feet. The overall length of 115 feet is currently State law [625 ILCS 5/15-304] and this amendment brings the rule into conformance with the Law.

Section 554.422 When Moves May be Made This amendment allows overweight only objects (all legal dimensions) subject to normal permit restrictions to move on a 24-hours-per-day, 7-days-per-week basis. This practice has been standard operating procedure for the past two years.

Section 554.509 Maximum Size Manufactured Home, Modular Home, or Oversize Storage Building This amendment updates the maximum size of manufactured homes, modular homes or oversize storage buildings on Illinois highways. A maximum length of 115 feet is now State law [625 ILCS 5/15-304] and this amendment allows for conformance with the Law.

Additionally, the Department is adopting an amendment to this Section that no longer limits the permitted height of manufactured homes, modular homes or oversize storage buildings to 15 feet when moving under the authority of a single or round trip permit. A maximum height of 15 feet will remain when moving under the authority of a Limited Continuous Operation Permit.

Section 554.518 Building Section This amendment removes the restriction for movement of building sections at heights greater than 15 feet when under the authority of a single trip or round trip permit. When moving a building section under the authority of a Limited Continuous Operation Permit, the 15 feet maximum height will remain.

Additionally, building sections are now allowed a maximum overall length of 115 feet when moving under authority of a permit.

Section 554.803 Railroad Deraiment Emergency Moves This amendment removes gender specific language when performing certain tasks and replaces the language with "he/she". In addition, annual permits for the movement of equipment to derailment sites are now State law [625 ILCS 5/15-308.1]. The addition of this portion of the amendment allows for conformance with State law.

Reg. 7067, effective DEC 30 1998.

SUBPART C: ISSUANCE OF PERMITS

Section 554.310 Procedure Following Arrest for Violation

- a) Following an arrest for violation of a permit, if the load can be shifted to comply with the provisions of the permit, the driver or owner may make the shift and then proceed. If the load cannot be shifted or otherwise adjusted to comply with the permit, a new permit must be secured following the same procedures as for an original permit.
- b) If the permit designates and includes a routing to a certified scale that was requested on the application as outlined in Section 554.607, the permittee, while enroute to the designated scale, shall be deemed in compliance with the weight provisions of the permit provided the axle or gross weights do not exceed any of the permitted limits by more than 2000 pounds on a single axle, 3000 pounds on a tandem axle, and 5000 pounds on the gross weight. Before leaving the designated scale area, the permittee must either
 - 1) shift the load to comply with the permitted weights,
 - 2) obtain a revision from the Permit Office if the final weights exceed the permit limits but are within the tolerances, or
 - 3) obtain a new permit if the weight tolerances are exceeded.
- c) Once a permit is violated for weights above tolerance limits, a revision will not be issued even though weights can be adjusted to be within tolerance limits.
- d) The fact that a new permit may be issued to continue the move carries no assumption of intent, error, mistake, or mitigating circumstances concerning the limitations, conditions, or provisions contained in the original permit that may affect its status subsequent to arrest.
- e) In the event that a permit load is found moving either one day before the effective date or one day after the expiration date of the permit, the incident will be considered a violation of permit; however, the permit remains valid. (See 625 ILCS 5/15-301(h).) Outside of these limitations (two or more days before or after the effective date or expiration date), the officer shall proceed with violations of 625 ILCS 5/15-111 as no valid permit exists.

Section 554.422 When Moves May be Made

- a) Permit movements on most State highways are limited to travel from a half hour before sunrise to a half hour after sunset, Monday through Friday, and from a half hour before sunrise until noon on Saturday except as follows:

- 1) Movements are restricted on specified holidays, beginning at noon the day preceding the holiday or the holiday weekend. The specified holidays are: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.
- 2) Movement shall not be made when the highway is covered with snow or ice or when visibility is unduly impaired by rain, snow, fog, smog or at anytime travel conditions are considered to be unsafe by the Department or State Police. Movements of house trailers over 12 feet wide is prohibited when wind gusts exceed 25 miles per hour.

- 3) Emergency and other special movements may be authorized for travel at any time if the need is justified. Other special movements may include those that would be better accommodated during hours when it would be less disruptive to other traffic and movements that are of critical importance to industry due to the tight time constraints. For example, repairs to the expressway system in Cook County are often done at night and on weekends. If equipment is required to do the work and there is no storage at the site, a permit may be issued authorizing travel to and from the jobsite during the hours of construction.

DEPARTMENT OF TRANSPORTATION

Section 554.518 Building Sections

a) Regulations governing permits for the movement of prefabricated house or building sections fall within two categories. The governing category depends on the type of vehicle on which the module is transported. The governing categories are movement as a house trailer and movement as a building.

b) Building sections moved under manufactured mobile home regulations are those transported on a frame and wheel assembly, on a trailer, or on a vehicle closely resembling a manufactured mobile home frame. The section must be specifically identified. The movement is made under the same restrictions, conditions, and provisions as a house trailer move and may not exceed 16 feet 0 inches wider-15-feet-high, and 115 99 feet combination length. Movements under the authority of a Limited Continuous Operation Permit shall be restricted to a maximum height of 15 feet.

SUBPART H: EMERGENCIES AND HAZARDOUS MATERIALS

Section 554.803 Railroad Derailment Emergency Moves

Emergency moves of vehicles or loads to railroad derailments may be authorized for movement over State highways during periods when normal permits are restricted, provided:

a) There is a loss of life threatened, hazardous materials are involved, a mainline or other major line is blocked, and the Department is notified of the incident no more than six hours after it has occurred. If more than six hours have elapsed before the Department is advised, the situation is not generally considered to be of an emergency

nature.

b) During normal working hours, the emergency services company must obtain a standard permit by contacting (217)785-1477. If the incident occurs when the Permit Office is not open, the railroad representative and the requested emergency services company must contact the central dispatcher (217/782-2937) within six hours of the time of occurrence to request the move and provide details. The required information that must normally be provided before authorization will be granted includes the exact location of the incident, the time of occurrence, the number of cars involved, an exact listing of the commodities contained in each car, the description of equipment needed, the origin and requested routing of the move. If loss of life is threatened or a highway is blocked, the Permit Office may waive the immediate need for some of this information.

c) After receipt and verification of the required information, the Department representative will check the requested routing to ensure it will safely accommodate the load. If the authorization is approved, he/she will then issue the permit by telephone and send a Teletype message to the Illinois State Police. He/she will also advise the State Emergency Management Services and Disaster Agency of the incident and the commodities involved. In order to obtain an authorization for movement at night or on weekends, the permittee must have received prior Permit Office approval of their escort and emergency lighting protection or have approval from the Illinois State Police that they will escort the move.

d) That, due to the physical capacity of the highways, the proposed moves be 12 feet or less in width, of legal height, and not exceed the practical maximum weights listed in Section 554.604.

e) That insofar as practicable, all safety precautions and operational conditions normally imposed by the Permit Office for special movement be observed.

f) If traveling conditions on the involved highways are considered hazardous due to weather, the Department's dispatcher will contact the Illinois State Police and, if necessary, hold the authorization until the highways are sufficiently clear to allow safe movement. While the provision may result in some delay, it is the Department's responsibility to ensure the presence of these oversize and overweight movements on the highway does not unduly endanger other motorists.

g) After release of the authorization, the permit fee will be charged to the emergency service company's account or be processed for billing.

h) That annual permits are available to move oversize or overweight equipment to the sites of train derailments and shall include all equipment otherwise eligible to obtain single trip permits under normal situations. Annual permits can be used at any time for movement to the site of a train derailment. 625 ILCS 5/15-308.1

ILLINOIS AFFORDABLE HOUSING PROGRAM

NOTICE OF PUBLIC INFORMATION

ANNUAL PLAN OF THE ADVISORY COMMISSION

The Illinois Affordable Housing Act [310 ILCS 65] (the "Act") established the Illinois Affordable Housing Program (the "Program") to provide affordable housing to low and very low income persons and families. The Act established the Illinois Affordable Housing Trust Fund (the "Trust Fund") within which is deposited 50% of the collections from the State real estate transfer tax. The Trust Fund monies fund the Program.

Funds are distributed and made available under the Program through two subprograms. The Housing Trust Fund ("HTF") Program, which has been in operations since the establishment of the Program, provides subordinate gap financing or grants in a maximum amount of generally not to exceed \$500,000 per applicant per year. In 1994, the Authority created the Trust Fund Bond ("TFB") Program. The TFB Program was created by leveraging Trust Fund monies to securitize and collateralize private taxable bond issues. The Bonds were sold in two funds. Funds from the sale of the bonds were then used to provide first mortgage loans to eligible developers of multi-family developments. No additional Bond sales are planned.

The Act creates and Advisory Commission (the "Commission") to advise the Illinois House Development Authority (the "Authority") as to the operation of the Program. The act provides that the Commission carry out certain responsibilities, including the development and publication of a plan. Section 17(a) of the Act requires the Commission to prepare and publish in the *Illinois Register* a plan which describes the available resources to the Program, the application process for the Program, and the initial priorities for expenditure of the available resources. Pursuant to Section 17(a) of the Act, the Advisory Commission to the Illinois Affordable Housing Program has prepared the following plan.

I. Available Resources

Based on a review of the Program and projections by the Illinois Department of Revenue, the monies available to be spent on the Program in fiscal year 1998 shall be approximately \$20 million. Of the total monies available, approximately \$5.4 million has been pledged to the TFB Program.

II. Application Process

The applicant must first complete an application form created by the Authority. The application requests, among other things, the following information:

- a. A general description of the proposed project.
- b. The total number of units, total number of low and very low income units, unit size and mix, and the respective rents or purchase prices

ILLINOIS AFFORDABLE HOUSING PROGRAM

NOTICE OF PUBLIC INFORMATION

to be charged.

- c. A breakdown of the project budget's uses and sources.
- d. A development plan which outlines the project's completion schedule and identifies the project's participants and anticipated funding sources.
- e. The background, housing experience, and financial status of the applicant.

The Authority charges a \$250 application fee to non-profit organizations and \$500 to for-profits which must accompany the HTF application.

After the applicant submits the application, the Authority will review it to determine whether the project, as proposed, satisfies the purposes and requirements of the Act and the Rules promulgated thereunder. The Authority will notify the applicant within approximately 30 days if the application fails to meet these requirements. If the application meets these basic requirements the Authority staff, in cooperation with the applicant, will establish and obtain the additional information necessary to properly evaluate the project. The Authority staff will then analyze the project's feasibility. Based on this analysis, the Authority will make its recommendation to the Commission. Prior to the Commission review, the Authority will notify parties interested in the application, including local officials, of the details of the project. The recommendations of the Authority staff together with those of the Commission will then be presented to the Authority's Board of Directors (the "Board") for approval consideration. Upon approval by the Board, the Authority staff will deliver a conditional commitment to the applicant.

III. Priorities

The following statement represents the initial priorities for the evaluation of Program applications. The priorities and goals stated below represent guidelines to be followed in evaluating applications and are not intended to be exhaustive. The Commission may modify these priorities and goals as the Program evolves.

- a) Priority should be given to those HTF applications which demonstrate that the applicant has explored and exhausted other available public and private resources.
- b) Priority should be given to those projects which provide the most affordable housing for the longest period of time, with a goal of ensuring that some Trust Fund monies be directed to the lowest income population.

ILLINOIS AFFORDABLE HOUSING PROGRAM

NOTICE OF PUBLIC INFORMATION

- c) The Program should ensure an equitable distribution of Trust Fund monies across the State by establishing a goal of funding a proportionate number of units in the Chicago metropolitan area, other metropolitan areas and rural areas as compared to those areas' percentage of State population.

1) Rulemaking: Proposed amendments

OFFICE OF THE ATTORNEY GENERAL

JANUARY 1999 REGULATORY AGENDA

A) Description: The proposed amendments to the Motor Vehicle Advertising Regulations are the result of the first comprehensive review of the regulations describing unfair or deceptive acts in the advertising of automobiles for sale since the rules were promulgated in 1991. Amendments have been developed over the past 24 months by law enforcement, industry, and trade group representatives at meetings of the Auto Dealers Advisory Council and are designed to account for changes in the marketing and advertising of motor vehicles since 1991. The proposals include various clarifications and would, among other things: reflect amendments to the Federal Consumer Leasing Act (15 USCA Sec. 1601, et seq.), and implementing regulations (12 CFR 213); prohibit the use of guaranteed trade-in allowances; and permit automobile manufacturers to offer free prizes, gifts or other incentives. Amendments to the following Sections are under consideration:

Section 475.310 Advertised Price
 Section 475.360 Disclosure of Basis for Price Comparison
 Section 475.370 Sales
 Section 475.410 Dealer Cost/Invoice Pricing
 Section 475.510 Executive or Official Vehicles
 Section 475.520 Demonstrator and Rental Vehicles
 Section 475.530 Rebates
 Section 475.540 Trade-Ins
 Section 475.590 Gifts and Free Offers
 Section 475.610 Credit Sales Advertising Disclosures
 Section 475.710 Lease Advertising Disclosures
 Section 475.720 Other Limitations, Restrictions or Conditions

D) Date agency anticipates First Notice: March 1999

E) Effect on small businesses, small municipalities or not for profit corporations: Small businesses such as automobile dealerships, advertising agencies and others responsible for automobile advertisements will need to familiarize themselves with the changes, but there are no new form, recordkeeping or other administrative requirements. The rules should not affect municipalities or not for profit corporations.

c) Part (Heading and Code Citation): Franchise Disclosure Act, 14 Ill. Adm. Code 200

1) Rulemaking: Proposed amendments

A) Description: The primary purpose of these amendments will be to conform the rules to recent amendments made to the Franchise Disclosure Act. Among the statutory changes were the eliminating of certain disclosure requirements over and above those of the Uniform Franchise Offering Circular, limiting the time period in which the Attorney General could review or deny a franchise registration application, extending the time for filing the annual report and eliminating the pre-use review of advertising by the Attorney General. Other changes will also be made, including, most significantly, a reduction in the materials to be filed with requests for exemptions from registration and the inclusion of an exemption from registration for very large franchisors that are widely registered elsewhere. The specific provisions to be changed are noted below.

Section	Subject	Comments
101	Disclosure Statement	repeal rule; results in UFOC as only format
104	Franchise Fee	further defines fee to include unreasonable transfer fee used to evade franchise definition
110	Material change	shortens definition
114	Negotiated change	system-wide changes to be timely filed
115	Offer	clarifies franchisor responsibilities when participating in tradeshow

ENVIRONMENTAL PROTECTION AGENCY

JANUARY 1999 REGULATORY AGENDA

a) Part(s) (Headings and Code Citation): System Capacity Regulations, 35 Ill. Adm. Code Subtitle F

1) Rulemaking:

A) Description: The Illinois Environmental Protection Agency (IEPA) is preparing a rulemaking proposal to amend 35 Ill. Adm. Code Subtitle F to incorporate technical, financial, and managerial requirements for new public water supplies (PWS). The proposed amendments to the IEPA's rules in Subtitle F are required by the 1996 amendments to the federal Safe Drinking Water Act (SDWA).

On May 22, 1998, the Illinois General Assembly passed SB 545 which, *inter alia*, amends Sections 15 and 18 of the Environmental Protection Act (Act) [415 ILCS 5/15 and 18] to require that new PWS have the technical, financial, and managerial capacity to meet federal and State drinking water regulations. The Governor signed this bill into law on August 14, 1998.

B) Statutory Authority: Implementing and authorized by Sections 15, 18 and 27 of the Illinois Environmental Protection Act [415 ILCS 5/15, 18, and 27].

C) Scheduled meeting/hearing dates: The IEPA has not yet scheduled meetings or hearings on this proposal.

D) Date agency anticipates First Notice: February 1, 1999

E) Affect on small business municipalities or not for profit corporations: This rulemaking may effect new small businesses, new small municipalities, and new not-for-profit corporations in Illinois to the extent the affected entities own or operate a "public water supply", as defined by Section 3.28 of the Act, i.e., it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance.

Code 186 to respond to a recent audit of the Illinois EPA/Division of Laboratories (DOL) Environmental Laboratory Accreditation Program (IL ELAP) by the United States Environmental Protection Agency's National Environmental Laboratory Accreditation Program (NELAP), and to recent changes to the National Environmental Laboratory Accreditation (NELAC) standards. The proposed amendments to the IEPA's rules in Part 186 are required for the IL ELAP to become a NELAP-approved program.

B) Statutory Authority: Implementing and authorized by Sections 4(o) and 4 (p) of the Illinois Environmental Protection Act [415 ILCS 5/4].

C) Scheduled meeting/hearing dates: The IEPA plans to meet with the Ad-hoc Environmental Laboratory Advisory Committee by April 1, 1999.

D) Date Agency anticipates First Notice: June 1, 1999

E) Effect on small business, small municipalities or not for profit corporations: This rulemaking will allow commercial laboratories in Illinois to compete with commercial laboratories in other NELAP approved states. g) Part(s)/Heading and Code Citation: Procedures to Be Followed in the Performance of Inspections of Motor Vehicle Emissions (35 Ill. Adm. Code 276)

- 1) Rulemaking: No docket presently reserved.

A) Description: The Illinois Environmental Protection Agency (Agency) and its vehicle emissions test contractor are preparing to begin Enhanced Vehicle Inspection and Maintenance (Enhanced I/M) testing under the Enhanced I/M test program required by the federal Clean Air Act [42 USC 7401 et seq.] and the Vehicle Emissions Inspection Law of 1995 [625 ILCS 5] in early 1999. The Agency has recently adopted amendments to Part 276 which provide the necessary procedures for Enhanced I/M testing to begin. However, the Agency anticipates that experience gained through actual vehicle testing will identify necessary adjustments and clarifications which will need to be made to the procedures contained in the current rules, and therefore, a new rulemaking may be required. Specific elements of this rulemaking are anticipated to be amendments to exhaust test procedures, and equipment calibration and maintenance procedures.

- B) Statutory Authority: 625 ILCS 5/13B-20 and 415 ILCS 5/27 & 28

C) Scheduled meeting/hearing dates: No meetings or hearings are scheduled at this time. Once the proposal is filed, the Agency anticipates holding one informational meeting in Summer 1999.
